

E - RACING BERGAMO

RECRUITING SESSION FOR COST & SUSTAINABILITY AND BUSINESS PLAN

WHO WE ARE

E-Racing Bergamo A.S.D. is the Formula Student team of the Students of the University of Bergamo, competing in the international Formula SAE championship. We are a group of 70+ students from different faculties, united by the goal of designing and building an electric race car, while also managing and communicating the project just like a real company.

WHY JOIN THE TEAM

Joining E-Racing Bergamo A.S.D. means transforming what you study into real, hands-on experience, working in a multidisciplinary team where engineering, economics, and communication meet. You will collaborate with local industrial partners and develop highly sought-after technical, organizational, and managerial skills. It's a unique opportunity to grow as a professional, expand your network, and contribute to the creation of a 100% Made in Bergamo electric race car.

OPEN POSITIONS

Cost & Sustainability: This department is primarily responsible for the team's cost and sustainability analysis related to the production of the race car. It evaluates manufacturing processes, optimizes the supply chain, and studies internal management dynamics, helping to make the team's organization more professional and efficient.

Business Plan: This department oversees the development of a Business Plan linked to the vehicle. It analyses the target markets, creates financial projections for the project, and develops bold marketing strategies. It's the ideal department for those interested in project management, communication, and technological entrepreneurship.
